

GT15000E **PUSH BUTTON ELECTRIC START** GENERATOR

11500W/14.4kVA

A highly versatile single & three-phase machine with a massive 11500W (max) power output, multiple heavy duty power-outlets, and ATS, the GT15000E allows for easy powering of a house, workshop or work-site and make an ideal back-up generator in natural disasters.

The 40L fuel tank and industrial quality of the GT15000E will keep you in power all day. The unique GT Power features like the industrial air cleaner, muffler system, superior-duty copper wound alternator, automatic voltage regulator and low oil alert will allow you to tackle any task.

2x
SINGLE PHASE
(15A & 32A)

1x
THREE PHASE
(20A) OUTLET

Push button electric start for effortless starting

Frequency-Time Meter

15A-single phase outlet

32A-single phase outlet

20A-three phase outlet

GT POWER 2 YEAR WARRANTY COMMERCIAL

GT POWER 4 YEAR WARRANTY DOMESTIC

Three Phase - 415V
Single Phase - 230V
